Duvall & Percival of this city are saving the farmers of Bates county thousands of dollars by giving them the benefit of their lower rates of interest on farm loans.

At Macon, Mo., an unknown woman left a 6 months-old baby at the home of Rev. Mr. Barnes, a Baptist minister. The woman was arrested and recognized by Dr. Barnes as a former member of his congregation in Wisconsin 10 years ago. He refuses to disclose her identity.

The new religion of the Deems brothers, living at Columbus, Kansas, must be a terror. There are fully seven families, the members of which have all gone crazy, and are now in the insane asylum.—Lamar Democrat.

When President Harrison took the oath of office as president, the treasury of the United States held a surplus of \$100,000,000. Only four years have elapsed since then, and the secretary of the treasury is making almost daily visits to Wall street in a frantic endeavor to maintain the credit of the nation. The surplus is gone.

The people of the whole state will be very sorry to learn of the serious illness of Congressman Tarsney. The doctors say his ailment is mental exhaustion with a slight touch of paralysis. He is a brilliant statesman, and an active worker and his death would be a great loss not only to his district but to the whole state.

The "grocers' bill" before the legislature, which provides that one-half of the wages and one half of all other property of persons shall be subject to execution on judgments obtained for debts contracted for the necessities of life, has been postponed indefinitely which means it has been killed. The proper way for a merchant to protect himself against dead beats is not to credit them. A person that will not pay for his groceries is not worthy of credit.

Jefferson City correspondence in Republic:

Since permission was granted by Warden Pace to have congregational singing the Sabbath morning exercises are looked forward to with more than ordinary interest by the convicts, and hundreds of them now join in the exercises. Warden Pace displays rare qualifications for his responsible position, being a man of good judgment and large heart. He is firm in discipline, but at the same time ever ready to do anything in his power to ameliorate the condition of the prisoners and give ready encouragement to reformatory suggestions.

Sweet Springs Herald.

While in Jefferson City Thursday of last week we had the pleasure of meeting Col. J. L. Pace, the new warden of the penitentiary. He is a gentleman of pleasing address and brings to the discharge of the arduous duties of warden an extensive business knowledge and ripe judgment and will no doubt so conduct the office of warden as to reflect credit upon Governor Stone in his selection and upon the state. He is well known to many of our readers, having resided some years ago in the vicinity of Longwood. His wife is a lady of charming manners, and is a sister of Mrs. Wm. Binkley and Mrs. R. C. Kelly, who resides south of the city.

Governor Lawelling, with his editors, preachers and lawyers around him, is not quite so ridiculous as when he was commander in chief of an army in the field, but he is still making comic history. He and his followers seem to have a notion that the Governor of Kansas is a little despot who can make laws and order things about as he pleases. In fact he is no more than the humblest citizen, except within the rather narrow limits set by the fundamental laws of the state. The populists have been studying essays on money, but they have had no groundwork of historical or legal knowledge to support their sudden acquisitions of theory. They began to move outside the law the moment they obtained official power. They were checked, of course. Henceforth they will begin to learn the practical truths of government which centuries have taught our British races. Law is above the queen of England, the president of the United States and governor of Kansas.—K. C. Times.

BURNED TO DEATH.

Eight Year Old Forrest Ware's Awful Fate.

Nevada Mail.

Late Saturday afternoon news of a terrible catastrophe in Moundville township was brought to town. The facts as far as learned are about as follows:

On Friday morning the two daughters of James Ware, both about grown, were cleaning some grease spots from clothing. They had a bottle of benzine, which they were using. They were near a stove and by some means the inflammable fluid became ignited and the bottle exploded with great force, throwing the benzine all over the young women, and saturating the clothing of their eight year old brother, Forrest, who happened to be standing near at hand watching his sisters while at work. They did not know he was in the room and in the terror of the moment and the confusion arising from attempting to extinguish the flames on their own clothing, did not notice Forrest till the little fellow was literally ablaze from head to foot. By the time they were able to come to his assistance his clothing had been pretty much all burned off his body. So badly was he burned that great flakes of flesh came off his chest and arms, when the flames were finally extinguished and the burned clothing removed. He suffered intense agony until the following morning, when death ended his suffering.

The Modern Invalid

Has tastes medicinally, in keeping with other luxuries. A remedy must be pleasantly acceptable in form, purely wholesome in composition, truly beneficial in effect, and entirely free from every objectionable quality. If really ill he consults a physician; if constipated he uses the gentle family laxative Syrup of Figs.

Farmers of Bates county, remember that C. F. Pharis the south side merchant buys your butter, poultry and eggs, when others will not. He pays the people cash.

SHOT IN PRISON.

Four Bullets Pierce a Negro in the Moberly Jail.

Moberly, Mo., Feb. 18.—John Hughes is in the hands of Sheriff Dameron to-night with four bullet holes in his person. Hughes is a negro 27 years of age. He was born in Yazoo, Miss., came here from St. Charles, Mo., was a theological student, and was to have preached his trial sermon last night, but for following and using insulting remarks to Miss Ducie Sparkman on the streets yesterday afternoon was locked up in our city prison. This morning the main entrance to the prison was opened by the officer in charge to allow the tramps who had been locked up all night to pass out, as well as to allow the cell prisoners, including Hughes, to be fed. The cells being securely locked, the officer in charge stepped outdoors for a few moments on some other business, when three men, supposed to be Theodore, Charles and Samuel Sparkman, brothers of Miss Sparkman, entered the prison, proceeded at once to the cell occupied by Hughes and opened fire on him through the bars. Hughes was struck by four balls, one in the mouth, passing out through the ear, one in the shoulder, one in the arm and one completely splitting and fracturing the knee cap. The number of shots fired cannot be ascertained, but 13 balls have been found in the cell and in the negro's person. When the shooting began, Hughes grabbed the bedclothes in the cell and wrapped himself in them and lay down. This and the darkness of the cell saved him from instant death, as his assailants were not more than seven feet from him. The Sparkman boys at once gave themselves up to a magistrate, waived a preliminary examination and were placed under bond of \$500 each, which they at once gave, some 60 or 70 men going on it, and others are still signing. The bond now represents over \$500,000. The Sparkman family stands high in this county.

Hughes denies the charges, but the evidence is overwhelmingly against him. Besides, it is said that this is not his first or even second offense in that line. There are grave fears that further violence will be resorted to as there is much excitement over the affair. Over 1,000 people called to take a look at him this afternoon at the city hall, where he is at present.
